Tamayouz center for traders' services

Tamayouz center is an initiative fired by the cairo chamber of commerce and under the supervising of the ministry of commerce & industry and the support of the ministry of communication and other sites includes cairo governorate, ministry of administrative development and in collaboration with the US agency of administrative development. A new definition in the world of commerce and it is considered as the meeting point between the traders & the different governmental services. The center combines between all the services that the trader would use in the field of trade practice (beginning of activity continue the activity - closing the activity) and what distinguishes it is that the center concerns in the first class on satisfying his customers from traders.

The center goals

1. Establish a new concept to offer special services in the government agencies.
2. Delivery of government services to the concept of focusing on the customer in the first place.
3. Credibility & transparency in offering the various services.
4. Offering the various services in a simple way free of administrative complexities and routine.
5. Offering integrated set of services from one place.
6. Offering technical advice with those people who deal with the center in all areas.
7. Solving the problems of traders with those sectors which offer the services to the traders by direct communication with stock holders to solve those problems.
